

CS5450 MOBILE PROGRAMMING

DR. SABAH MOHAMMED

DEPARTMENT OF COMPUTER SCIENCE

CHALLENGE 2: FLUTTER MOBILE PORTFOLIO (30 POINTS)

Every group is responsible to develop a portfolio for certain personal, speciality or service using Flutter/Dart. The portfolio is the principal tool that we, designers, use to showcase our work. Our goal should not be showing all the details of the service or speciality that we have worked on, but the skills that make our speciality as special to get the desired attraction. Your app needs to demonstrate what the portfolio is capable to provide the kind of value we can add to the potential consumer. Here are the group's distribution tasks:

- Group # 1: Law Firm Portfolio
- Group # 2: Job Seeker Portfolio
- Group # 3: State Agent Portfolio
- Group # 4: Car Dealer Portfolio
- Group # 5: Home Handyman Portfolio
- Group # 6: Investing Planner Portfolio
- Group # 7: Insurance Broker Portfolio
- Group # 8: Multi Speciality Healthcare Clinic Portfolio
- Group # 9: Freelance Programmer Portfolio
- Group # 10: Interior Designer Portfolio

General Notes:

- (1) Every challenge will be marked in two ways: by instructor/TA who will gives you the mark (12% on the Zip package on D2L) and by your colleagues who will vote for the best three winners. The best three winners will get 3, 2 or 1 mark bonus.
- (2) The group **must** demonstrate the solution to the challenge via presentation (3%).

(3) 30 Points will be converted to the 15% mark as provided by the course outline.

Requirements

1. Recommended to use the Flutter IntelliJ IDEA to create your app.
2. You need to employ Firebase in storing the portfolio data.
3. Provide a README.pdf file explaining how to configure and run your solution to this challenge including some screen shots. The README.PDF should describe the exact project structure.
4. Create a Github Public Account and upload your Full-Android Studio challenge2. Mention clearly the link to your Github in your README.PDF.
5. Upload the challenge solution package as ZIP file to the class course management (e.g. D2L). It must contains all your Dart files + Images + README.PDF
6. Present your Challenge App using Zoom

Grading Criteria

Base Grade					
Categories	A	B	C	D	F
Programming (Flutter/Dart)	9-10	8	7	6	<=5
Functionalities demonstrated by Android/iOS Emulator/ Chrome(web)	9-10	8	7	6	<=5
App Design, Arts, Responsive Design	9-10	8	7	6	<=5
Total	0–30				
Adjustments					
App has minor technical flaw(s)	–3				
App does not work or not presented in Class	–15				
Failed to turn-in resources (partially)	–3				
Missed deadline	–3/day				
Work only on Chrome (Web)	-2				
Work on the Actual Phone Device	+2				
Copied work from other students or from over the web	-30				

Key	
A	Professional quality work.
B	Above average student work. Goes above and beyond what's required.
C	Average student work. Meets the minimum requirements of the project.
D	Below average work. Fails to meet minimum standard.
F	Incomplete or very poor.

Note: Respecting the student behaviour code is highly appreciated:
